Abstract

I participated the Cooperative Education Program at Sripatum University Chonburi Campus as an intern in Intercontinental Pattaya Resort. With the reason for improving my English skill, confidence and working experience, I decided to enroll myself to front office and club lounge departments within 4 months. In those period, I had faced a verity type of difficulties to overcome, then integrating the mistake that I had done into my own methods to solve the problem in this workplace.

Also, I had learned several types of inspirations that I could apply to my future career.

In this report, reader can dentally understand the method to find the internship, the duties and responsibilities of work, the problem and solution that I had found at work and the recommendation for students and the related Cooperative Education Program.
