Abstract

This report describes my internship experience at Birds and Bees Resort Cabbages and Condoms Restaurant, Pattaya. This is the restaurant decorated by condoms and sex toys, hanging from ceilings, embedded in tables, affixed to lamps and imitating table flowers. The restaurant has a focus on family planning.

I was assigned as a waitress for 17 weeks. I had to take good care of customers. I took order from customers to key in the machine device and serve meals. Sometimes, when there was a wedding party, I was asked to go there to take care of customers. In the last 3 weeks, I was a trainee as a housekeeper. I had to clean the rooms in the resort. Most of the guests are foreigners. I can learn English through communicating with them; moreover, I had a chance to communicate in English with those with various accents.

I would like to recommend the workplace to future students who would like to work in an international restaurants and improving all related skills at the same time.
