Abstract

I attended the Cooperative Education Program at Sripatum University - Chonburi Campus for the first time. I have completed the nineteen-week internship at the Airports of Thailand Public Company Limited Co., Ltd., located on Suvarnabhumi Airport, Samut Prakan Province. It is my first time to work in a real workplace with officers. I had a lot of responsibilities and obligations and faced problems. Of course, I gained useful experiences and learned how to solve various problems.

The report will show my internship duties at the office of Airports of Thailand Public Company Limited Co., Ltd.. I used the English language for conversation with foreigners who sometimes spoke with different English accents. My main work was based at Suvarnabhumi Airport Administration Department. At the same time I had pressure from my trainer regarding work. I had to learn how to avoid problems working my work easier.

I have tried to write my reports with simple sentences so that it may be understood easily. I hope my internship experience will be very useful to me for years to come.
