Abstract

I attended the Cooperative Education Training Program at Sripatum University Chonburi Campus. I took an interest to internship at the Sanctuary of Truth because I wanted to try speaking English skills due to this place is a famous tourist attraction among foreigners and also nearby my home too. I wanted the new knowledge, new friend and work experience. So I decided to choose here. I was the General assistant receptionist and face many problems each day. I think it is good that I have been learned and trained to solve those problems on my own which I received a lot of new experiences from The Sanctuary of Truth (Pattaya)
