Acknowledgements

I would like to thank the following persons who helped and contributed to my success in this internship project: I am grateful to my family for giving me spirit and everything to me during my internship. Thanks to Dr. Sukarna Chakma, EBC advisor for helping me about my weekly reports and advice for his valuable comments and suggestions throughout the process of my report procedures, presentation, sentence structures, grammar and problem that I encountered during the training. I would not have achieved this far and this internship would not have been completed without all the supports that I have always received from him. I would say that he is an excellent advisor. Thanks to Ms.Nichana Rachsuwor, my supervisor for giving me opportunity to learn about my internship. I am thankful to everyone for their help and suggestions regarding my training project, report procedures, presentation, sentence structure, grammar and problem I encountered during my training.

In addition, I am grateful to all the people whom I have not mentioned by their names who have given advice in the preparation of this report.

I would like to thank everyone who has been involved in providing information, advice, and being a consultant to complete this report.

Miss Paweena Roopkum
