ABSTRACT

I am an undergraduate student in English for Business Communication, School of Liberal Arts, Sripatum University at Chonburi. I have completed my internship which lasted 19 weeks at Solvay Peroxy Thai Company Limited. The reason I chose an internship here was because I wanted to practice my English skills in listening, speaking, reading and writing. I wanted to gain new experiences in an environment that is foreign at the international industry. And I wanted to know if I could work well under pressure or not. In this report, I collected my work experience from 13 January 2020 to 8 May 2020.

This report shows my job positions at Solvay Peroxy Thai Company Limited, including my job responsibilities, work experience throughout the internship period which can be very useful for everyone. This report shares my experience of using English for communication with foreigners with different English accents. And I have developed my skills regarding job-related sentences or vocabularies in the international industry. I hope that this report will be useful for those interested in international work, all readers and internships for everyone.
